We make flexibility work.

Media Kit

what we do

We are on a mission to empower the working world.

With a thirty-year background in traditional staffing and manufacturing, we've seen how difficult it has become to find workers, let alone retain a stable workforce. While many jobs in office environments have started offering flexible work arrangements, the contingent hourly workforce has been left behind. We listened to today's worker and have embraced flexibility by empowering our W-2 employees to design their own schedule. This has created a culture of performance with fill rates averaging above 95% - proving that flexibility and productivity can co-exist.

What they're saying about us

MyWorkChoice gives me the opportunity to choose my own schedule and work only that shift, without needing to work overtime. That's what I really like about it. I am able to work 40 hours a week, but it helps balance out my life, between work, family, and my own free time."

about tana greene

At 17, Tana wrote a goal on a piece of paper: own my own business by age 30. She spent the next 12 years defining what that business was going to be, but her purpose was clear. She wanted to help others by finding them employment. That goal became a reality in 1988, when she co-founded a national staffing company that grew to operate in more than 20 states. With over 30 years of experience in the industry, Tana saw first-hand the changing needs of the contingent workforce and understood the vital role flexibility and technology must play moving forward. In 2017, she guided the company's transformation into MyWorkChoice, which embraces flexibility to provide a dependable, consistent workforce for their customers.
